

HITACHI

OVERVIEW

Building the Future of Spacepower.

Powering digital transformation
from ground stations to the heavens.

As a trusted leader in mission-centric data solutions, Hitachi Federal empowers U.S. space agencies to harness the full potential of its data for national security and operational success. With deep expertise in federal requirements and a commitment to innovation, we deliver advanced data infrastructure, intelligent management, and analytics solutions that enhance tactical readiness, ensure data security, and accelerate informed decision-making across all mission domains.

Meet Hitachi Vantara Federal

Hitachi Vantara Federal is the trusted leader in mission-centric data solutions for the United States federal government.

As a FOCI-mitigated Hitachi subsidiary, we securely deliver and support transformative digital solutions. Our comprehensive range of hybrid cloud and data fabric solutions advance federal missions at all data maturity levels.

We provide dedicated 24x7x365 Tier 1 Support and hold a TS Facility clearance, and are trusted by all U.S. Armed Forces and Cabinet Agencies.

Simplify and modernize data infrastructure.

Hitachi Virtual Storage Platform One (VSP One) is an all-in one hybrid cloud data platform powers infrastructure, data and apps without constraints. This platform is designed to simplify the complex landscape of data storage, enabling organizations to consume and manage structured and unstructured data across a distributed hybrid environment across on premises and public cloud environments seamlessly.

Power AI & high-performance workloads.

Hitachi iQ delivers a fully integrated AI infrastructure stack that unifies data, models, and orchestration—eliminating complexity and manual data movement. Built for federal missions, it accelerates AI outcomes, reduces latency, and simplifies operations across training, inference, and analytics in one seamless, secure platform, offering fastest time to insight by accelerating GPU workloads by over 20x.
